

# Generation AI

Embracing the Future of Artificial Intelligence

# About Foundation for Armenian Science and Technology (FAST)

Since 2017, FAST has been building an **innovation ecosystem** to support scientists, technologists, and innovators in Armenia and propel them toward global success.

Focusing on science and innovation, **FAST empowers innovators** to bring cutting-edge, and globally competitive solutions to life.

We team up with academic institutions, government bodies, non-governmental organizations, and global players to ensure our impact reaches far and wide. Together, we're generating positive results that align with our core mission and values, inspiring and enabling positive change on a global scale.

# Our Leadership

Consultant, Former  
Chairman, Alcatel-Lucent  
Enterprise  
France

**Dr. David Yang**

Serial Entrepreneur,  
Founder, ABBYY  
USA

# Our Pillars of Impact

**26**

programs

**12,000+**

beneficiaries

## EDUCATION

**2600** participants directly trained in AI and entrepreneurship

**3500+** training hours

## RESEARCH

**250+** researchers funded

**85+** scientific papers in international journals

## COMMERCIALIZATION

**49** angel investors engaged

**35** startups funded

**270+** startups benefited

Generation AI

Nurturing Future Innovators

**Generation AI High School Project**  
Changing the Future of Armenia with Transformative Education

# Harnessing AI to Propel Armenia's Digital Future

With large-scale expansion of AI on global markets, it is predicted to generate a **\$459.3 billion market by 2030**.

Since 2017, FAST has been at the forefront of bringing AI advancements to Armenia. And today, we're taking another big step forward with the Generation AI program. This initiative is focused on creating a **sustainable education pathway** that will help nurture talented individuals for successful careers in AI. Our ultimate goal is to not only stimulate growth in the local AI sector, but also meet global demands for AI talent and **drive innovation** in the field.

Generation AI

Nurturing Future Innovators

# Generation AI: A multi-layer solution

Generation AI aims interventions at all education levels, starting with high school level. Further, at the university level, projects focus on program revisions, new course development, project-based learning, and research engagement at bachelor's, master's, and doctorate levels.

The project is being implemented in partnership with the Ministry of Education, Science, Culture, and Sports with a vision of scaling it to **more public institutions and regions** in the coming years.

# Objectives of Generation AI High School Project

## Developing

Deliver skills in advanced mathematics and computer science, foundational for learning AI and overall tech proficiency

## Motivating

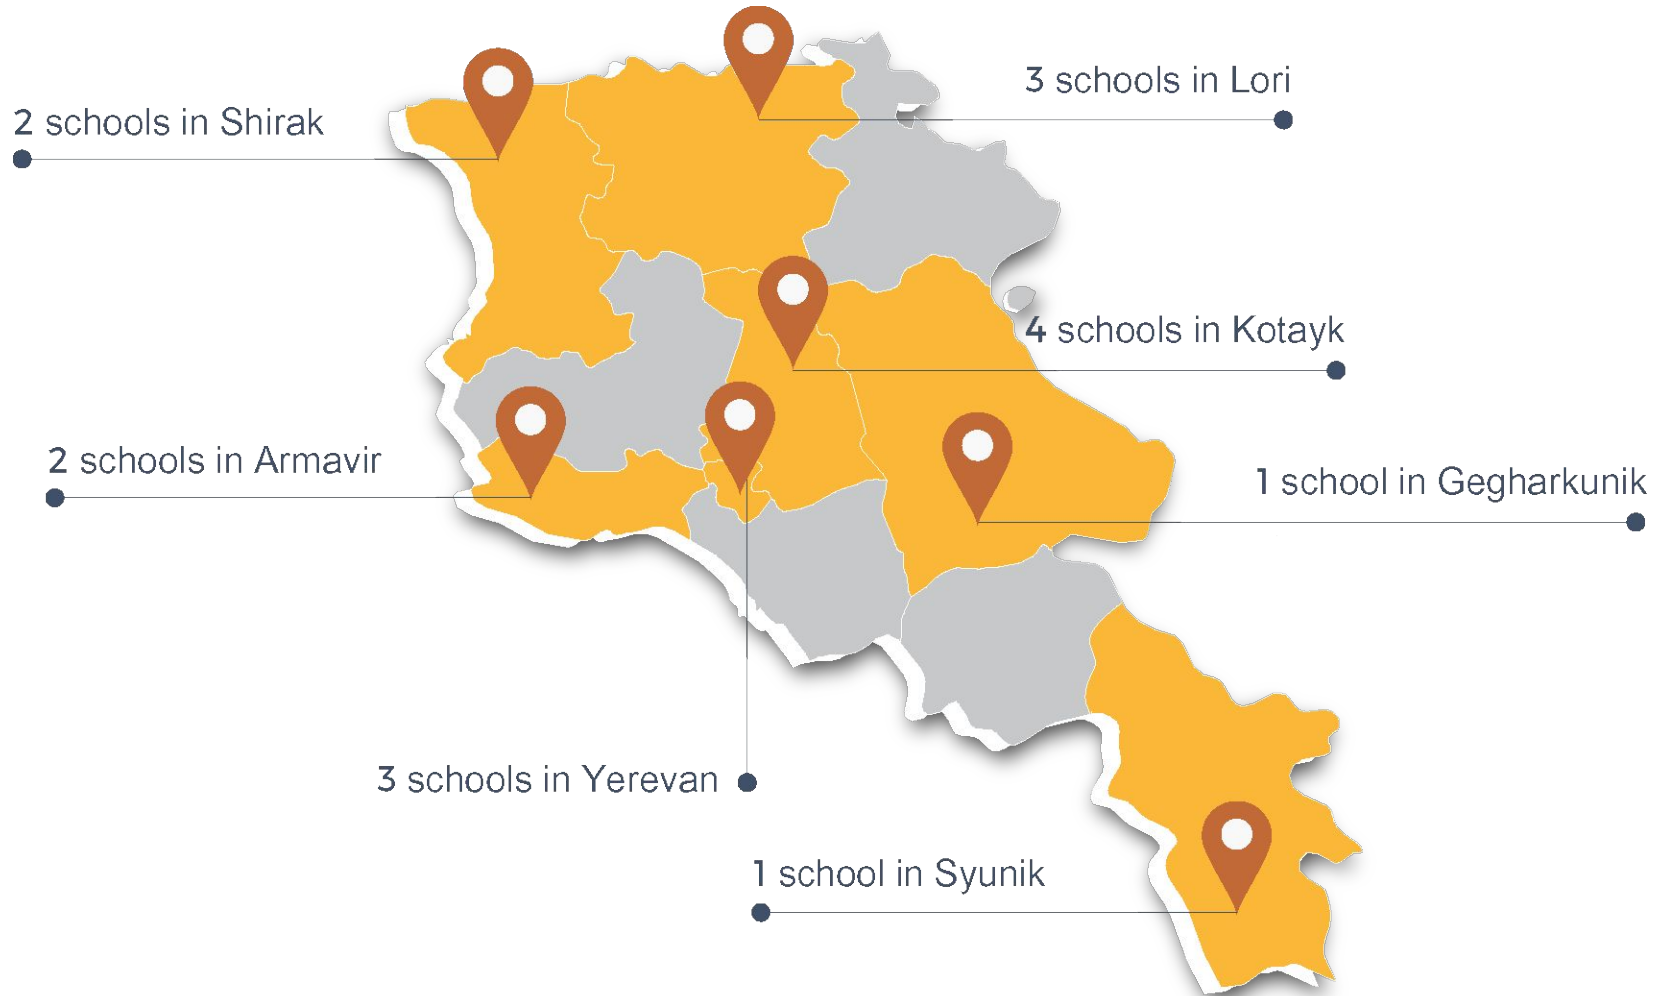

Raise student literacy and motivation towards AI and STEM research & innovation careers

## Upskilling

Provide differentiated AI education for high school students

# Generation AI High School Project 2023-2026

16

Participating  
Schools

7

Regions Across  
Armenia

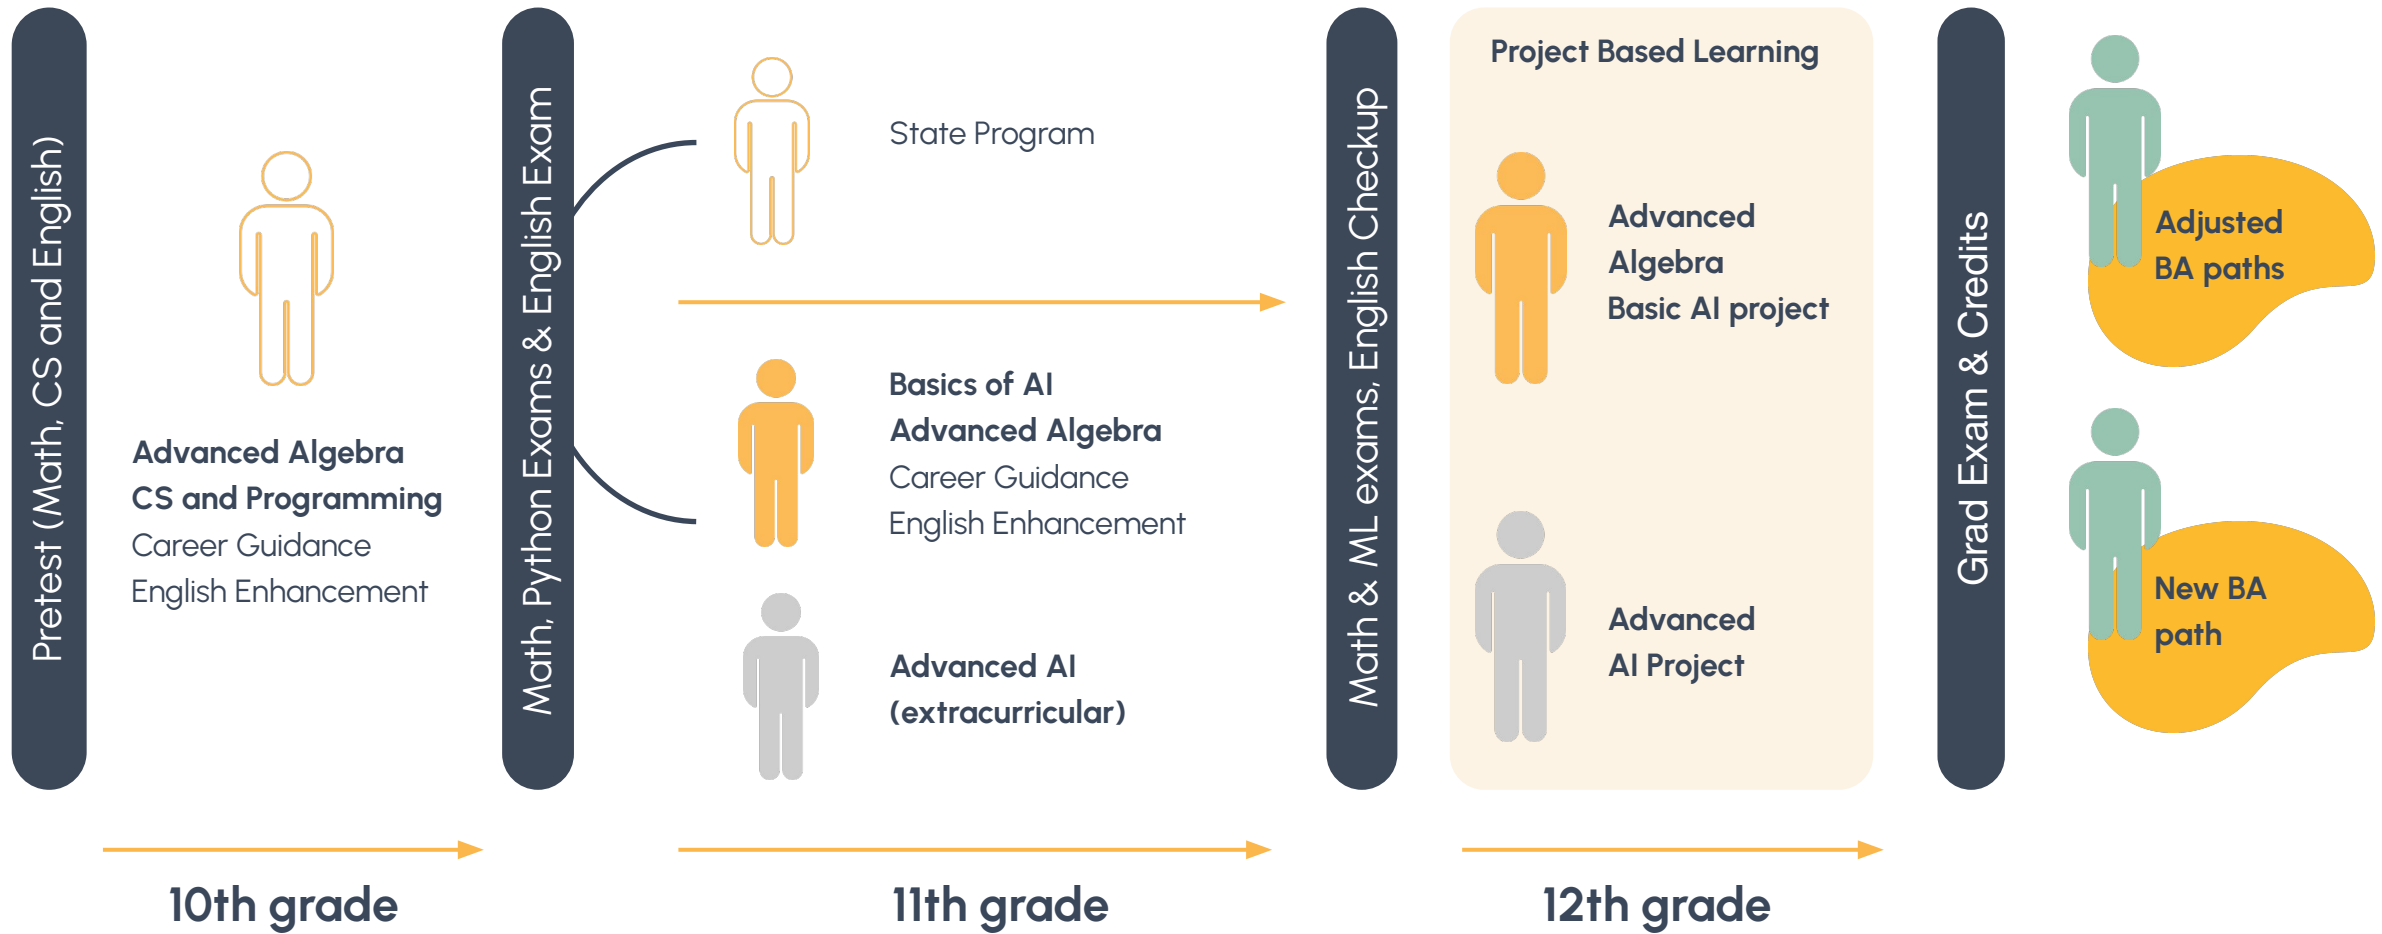

58+

Teachers and  
Instructors

400+

High School  
Students

# Student Learning Path

# Content multi-layered expert validation

To ensure that the program meets the highest international standards and effectively addresses Armenia's specific needs, we follow a comprehensive validation process.

High-level international experts in the field of education

Advisors

Local and international experts from academia and industry

Taskforce

Local and international curriculum, content, assessment specialists

Workforce

Specialists and partners for teacher training and mentoring

Specialists and partners for career guidance program

# Advisors of Generation AI program

## Pioneers in Education, Statistics, and Institutional Leadership

**ALICE PETROSSIAN**

Served as Chair of the California Commission for Teacher Credentialing, President of the California Community Colleges Board of Governors, and Trustee of the California State University System.

**DR. ARNAK DALALYAN**

Professor of Statistics at ENSAE, Institut Polytechnique de Paris, and the Director of the Center of Research in Economics and Statistics (CREST). Currently serves as Associate Editor for several statistical journals.

**DR. MARY A. PAPAZIAN**

Dr. Mary Papazian most recently served as the 30th president of San José State University (SJSU). She holds 35 years of experience as a university professor, academic and administrative leader.

# Content Development Experts

**Ashot Abrahamyan**

Candidate of Technical Sciences,  
International Education Expert,  
Lecturer of Mathematics and  
Computer Science

**Khatchig-Hrag Derjian**

Mathematics teacher, mathematics  
content developer and teacher  
trainer at Aslan Seminary in  
Lebanon

**Martin Mirakyan**

Master's graduate,  
Instituto Superior Técnico, Portugal  
Co-founder of Profound Academy

# Content Development Experts

**Dr. Hrayr Harutyunyan**

Research Scientist at Google  
Research  
PhD in Computer Science,  
University of Southern California

**Vahan Huroyan**

ML Researcher at YerevaNN  
Research Lab, ML course  
instructor at YSU and ACA,  
Ph.D. in Mathematics, University  
of Minnesota

**Tsolak Ghukasyan**

NLP researcher and lecturer from  
Russian-Armenian University,  
Ph.D. in Computer Science, RAU

**Varazdat Avetisyan**

AI specialist at SASTIC,  
Co-founder, CTO Luseen Mobile,  
Trainer, Lecturer, PhD in Computer  
Science,

# Program Taskforce

The program curriculum and all learning materials developed in the scope of the program are reviewed by our Taskforce which includes teachers, lecturers and experts from various educational institutions and industry leaders.
